January 23, 1981

Filiberto Sanitation, Inc.
Parker Road
Chester, New Jersey 07930

Dear Mr. Filiberto:

In response to the incident that occurred on January 16, 1981 at our Combe Fill South facility in which a vehicle operated by your firm attempted to dispose of material which we are not registered to accept, you are hereby advised of the following:

This facility may only accept for disposal, those materials identified in the solid waste utility tariff on file at the Board of Public Utilities and approved by the certificate of registration for this facility from the Department of Environmental Protection.

It is further required that each container or drum be certified clean of contamination prior to disposal by the generator, and that the collector/hauler verify this through correspondence with the Department of Environmental Protection with copies sent to this office. This procedure is necessary to protect the collector/hauler as well as Combe Fill Corp. I would suggest that you contact the Department of Environmental Protection for their procedure in granting such certifications.

Should you require any further information, please do not hesitate to contact this office.

Very truly yours,

COMBE FILL CORP.

Gary A. Molchan
Vice President and
General Manager
